---

Enthusiastic and well-organized Java developer with nearly 3 years of experience in developing and delivering user-centric software applications using Java/J2EE technologies. Offering strong expertise in multiple languages including Javascript, Web (HTML, CSS, JSON). Seeking to secure a challenging position as a Senior Java Developer.

Technical Skills

- **Programming Languages:** Java, JavaScript, NodeJS, Python 3.
- **Databases:** Oracle, MySQL.
- **Frameworks**: Spring, Spring Boot, Angular 9, Django, Bootstrap 4.
- **Tools**: Eclipse, Gitlab, OpenShift, Jenkins, Visual Studio Code.

Work Experience

o **Version 1 Software, Dublin, Ireland** (Jan 2019-Present)
Java Developer - Full time

- **Full stack developer** on Version 1's highest revenue project, The Department of Agriculture (DAFM), developing **Payment Systems** and the **Online Self Service Web Portal.** The project is built on **Angular 9**, **Spring MVC** and **Oracle 10g.**
- Project lead on a Document Scanning solution built on **Python Django Framework** with **Redis** deployed **Red Hat OpenShift Kubernetes**. Winner of the 2021 Red Hat Innovation Award 2021
- Supporting the continued development of DAFM external APIs for imaging and spatial services. Implemented using **React Redux Microservices** on **Spring Boot**.
- Applied relevant technical skills to deliver specifications, program changes, unit test scripts, and documentation.
- Supported programming changes during quality assurance, user acceptance testing, and post implementation.
Technologies used: Java (Spring, Spring-Boot), **Angular 9**, Bamboo, **OpenShift**, Gitlab, Django, Oracle DB

o **Fergal Brophy (openinnovationservices.com & fergalbrophy.com)** (Aug 2018-Sept 2020)
 Full Stack Developer – Pro bono Tech consulting

- **Communicated** clearly and positively with customers to understand websites' **requirements**.
- Developed the entire website and **delivered the site** successfully before given time.
- Developed drag and drop applications in **NodeJS** and **Angular 9** and integrated them with the website that is actively used by clients.
- Developed **DevOps** pipeline by connecting **Github** webhook with **Heroku** to trigger a build on push and deploy the application.
- Used GitHub for **version control** of the project.
Technologies used: NodeJS, Angular 9, Heroku, MongoDB, **GitHub**.

Education

o **MSc in Computer Science (NL)** (Achieved 2:1) (2017-2018)
University College Dublin
o **B.E. in Information Technology** (First class Honours) (2013-2017)
K.J.S.I.E.I.T, Mumbai University, Mumbai, India

Certifications and Learnings

- Certified AWS Cloud Practitioner (2019)
- Completed training on Agile framework (2021)
- Currently, pursuing a course on spring boot microservices and Angular 9. (Present)

Honors and ExtraCurriculars

- Won **Excellent Newcomer of Version1** and **RedHat Innovation** award (2020)
- Academic Scholarship, University College Dublin (2017-2018)
